We offer specialised preventative advice and assistance on this complex and constantly changing issue, for companies, authorities and private individuals, as well as during disputes concerning among others:

- granting of permits - Flemish Code on Spatial Planning (VCRO), municipal building regulations and building codes (obligation to have a permit, exemptions, reports, urban planning permits and land division permits, currently referred to as the integrated environmental permit);
- enforcement (breaches of urban planning, nuisance, financial penalties, prosecution) ;
- spatial planning (municipal and provincial spatial implementation plans, BPAs, etc...).
