

# LIABILITY LAW

written by Dennis\_Rombaut\_ | June 19, 2021

Everyone is confronted with liability issues at one time or another. One concept is key in this very broad area of law: damage. Those who suffer damage in the broadest sense of the word will search for the responsible party to acquire compensation. Our specialists will search with you.

- damage resulting from general accidents;
- accidents at work;
- claims for damage estimates (indicative table);
- medical errors: procedure before the Fund for Medical Accidents;
- liability for children, animals, property, employees;
- all Construction Site Risks (CAR policy);
- ten-year liability.
