

# THE LAW GOVERNING ATTACHMENTS & EXECUTIONS

written by Dennis\_ Rombaut\_ | June 19, 2021

Acquiring a judgment is by no means the end of proceedings. The most important aspect must still be completed: cashing in on the granted claim. Our office is very familiar with the execution stage.

- attachment before judgment;
- attachment in execution;
- attachment by garnishment;
- seizure of bank account;
- challenging attachment.

## CONSUMER LAW

There are strict rules with regard to the sale of products and services by professional sellers to consumers. We would be pleased to defend you if you encounter problems following the purchase of a product or service.

- non-conforming delivery;
- guarantee-related problems;
- misleading advertising.
